Volume

| Validate | Load Staging Table |

Instructions

Enter your Volume information in grid below. Use the Validate button to validate the correctness of data and rectify in case of any errors **(This step is optional)**. Then use the Load Staging Table button on this worksheet to transfer the data from the grid to the database. **All the information in this workbook is required.**

Note that you probably have much of this information in some electronic format (text documents, spreadsheets, etc.). If you have this type of information available but don't know how to bring it into the templates in this workbook, contact your Application Consultant for assistance.

	Billing Facility Code	Billing Department Code	Procedure Code	Procedure Code Description	Quantity	Post Date	Service Date
